

ABOUT OUR FOUNDER

Founded by
Certified Mohel
**Rabbi Nathan
Phuzayloff**

C. M., our
compassionate practice provides stress-free, at-home circumcision services.

Rabbi Nathan C.M. began his career by apprenticing with renowned professionals, participating in nearly three hundred circumcision procedures. He received further tutelage and completed his certification under the guidance of renowned Mohel, Ephraim Josovic, Dean of the London School of Circumcision.

With over a decade of experience and hundreds of successful circumcisions, **Rabbi Nathan C.M.** has earned recognition as a trusted authority in the field.

Families opting for home births with midwives for holistic benefits may also prefer a holistic circumcision option. Recognizing this growing demand, **Holistic Circumcision LLC** was established to provide accessible, holistic circumcision services. We offer a traditional technique highly recommended by pediatricians, OBGYNs, and midwives, ensuring a comfortable and peaceful experience for the entire family.

WHAT IS A MOHEL?

The word Mohel is the Hebrew title ascribed to a certified circumciser. A mohel is a highly trained professional, specializing in the medical and surgical techniques of circumcision. They possess a deep understanding of anatomy, surgical precision, and pain minimization.

By integrating medical proficiency with cultural, spiritual, and emotional understanding, a mohel provides invaluable support to families, ensuring a meaningful, safe and pleasant circumcision experience, which honors their heritage, culture, and religion.

WHY CHOOSE HOLISTIC CIRCUMCISION?

At Holistic Circumcision, we follow the Biblical and Jewish mandate to keep all discomfort to the baby to an absolute minimum. Our core philosophy is that a baby should not be subject to traumatic, invasive procedures. Holistic Circumcision was created to provide you with a convenient option, ensuring the process is easy, fast, and virtually pain-free.

CORE VALUES OF OUR HOLISTIC CIRCUMCISION APPROACH

When considering circumcision for their baby, many parents automatically assume clinical procedures are the only way forward. However, one should be aware that the conventional circumcision experience is vastly different from our holistic approach.

1 Exceptional Service

- » Performed by a mohel with extensive training and practice specifically for circumcision.
- » Personal service. The Mohel can be reached on his personal cell phone number before and after the circumcision.

2 Family Involvement

- » Comfort of your home. A warm, familiar, family environment.
- » Parents may hold their baby during procedure.
- » A familiar setting significantly reduces stress for both the baby and family, mitigating anxiety typically associated with hospital or clinical environments.

3 Spiritual and Emotional Connection

- » The circumcision ceremony is not just a medical procedure; it is a moment of profound significance in which parents can be present.

4 Procedural Benefits

- » 5-10 second procedure.
- » Minimal blood loss.
- » At least 8 days after birth, giving time for the development of the infant's natural clotting abilities and platelet production.
- » Minimally invasive, no clamping devices used.
- » No drugs or injections. Topical anesthetic is optional.
- » Quick recovery.
- » Vitamin K shot not required.
- » Cosmetically pleasing.

5 Education & Transparency

Before the scheduled date, we will review the circumcision process and what to expect. We will also discuss any concerns or questions. This ensures that you feel comfortable and prepared in all aspects for this significant event.

6 Aftercare

Once the procedure is complete, you will be provided with clear and simple instructions on how to care for your baby, along with all the necessary materials. You will also receive clear guidance on what to expect during the healing process.
